General Information

Short summary

A Finnish eco-design company is looking for a supplier or manufacturer of designed and round shape-cut foam plastic components. The diameter of the component is 90 mm. The desired form of cooperation is a manufacturing or a subcontracting agreement.

Full description

The Finnish SME established in 2016 produces and sells design products for outdoors. Currently the company is selling to 6 different markets and it is looking for rapid expansion within the upcoming years.

The company is looking for a supplier or manufacturer of designed shape-cut (round shape) absorbent foam plastic sponges (see picture). These products are components to consumer products designed by the Finnish SME. The diameter of the component is 90 mm with tolerance of +/- 2 mm and the diameter of the hole is 25 mm. The raw material should fulfill the requirements of the REACH Regulation. Any materials offered should not contain any harmful chemicals and should be produced ethically. Also ecological, substitutive materials may be of interest, if possible.

The partner sought should act as a supplier who can deliver the products per purchase order. The estimated order frequency is 3-4 times a year and the estimated quantity will be at minimum 4000 units per order in the beginning and the amounts are expected to grow later. The intention is to find a partner for long-term cooperation. The form of cooperation can be a manufacturing or a subcontracting agreement.
